ABOUT TYLÖHELO

TYLÖHELO

We are living and breathing sauna, steam and infrared passion. We develop, manufacture and market high-quality sauna and steam products worldwide for a global market. The built in sense of pride and genuine feel that signifies our sauna and steam products can't be replicated. And it might just be a contributing factor to our century-old success story.

HOW PASSION CREATED A WORLD LEADER

We always strive to create class-leading products. Steeped in a tradition of sensible and durable solutions, our Nordic heritage constitutes the foundation behind the development of traditional sauna experiences.

WELLNESS BEFORE IT BECAME FASHIONABLE

Our traditional sauna products, heaters, sauna rooms, technology and accessories are all tried and tested by the world. A testament to the popularity of our take on wellness, is that we have been an established player in our market since 1919. TylöHelo products create sauna experiences in 90 countries across the world. And even though we are based in Sweden and Finland, the majority of our take on wellness is exported.

TECHNOLOGY, QUALITY AND SAFETY

Our offering is a complete range of products and accessories to ensure a perfect wellness experience. Our saunas and steam rooms will always function seamlessly with our proprietary technology. Rooms, heaters, control panels, steam generators and accessories are all created by us. This is why we can provide generous warranties with all our products for residential use. The built-in longevity of our products ensure a long lasting return on investment as well as a smaller environmental foot-print. Our smart solutions means both thoughtful and energy-saving functions. Our designs are conceived to be easy on the eye, but also provide ease of use and a safe environment to all users.

A CENTURY OF ENVIRONMENTAL CONCERNS

Being who we are, we have always preferred to keep things close to home. Our products have always been developed by ourselves and by true sauna enthusiasts, with science becoming increasingly important over the last one hundred years. Our manufacturing processes are completely clean. There are no harmful emissions from any stage of the production process. The timber we use comes from responsibly managed forests in Scandinavia, the Baltic states and North America. None of our timber is sourced from the world's precious rainforests. All plastic components are manufactured from environmentally certified raw materials, with waste and scrap material kept to a minimum. We work steadily to change our business

practices and share what we've learned. But we realise that what we have done is not enough. We seek not only to do less harm, but more good. We do it by providing feel-good moments and wellness experiences in the most energy efficient way.

GLOBAL CUSTOMER SUPPORT

We always work hard to get things right, create products and manuals and instructions that are comprehensive and easy to follow. But every now and then, questions arise. To counter act any hold-up during installation or how to operate our products, our support team is global and always there to assist through trained and competent local TylöHelo dealers. They will assist you to answer your questions clearly and efficiently to ensure quick problem-solving.

FOR WELLNESS, HEALTH AND HAPPINESS

REGULAR SAUNA BATHING CAN PROTECT THE HEART

Regular sauna bathing can reduce the risk of heart attacks by as much as 63%, according to a Finnish study. For 20 years, the the Finnish research team monitored 2,000 middle-aged men. During this period, it became clear that those who sauna bathed regularly had a significantly lower risk of suffering from cardiovascular diseases of various kinds.

Association Between Sauna Bathing and Fatal Cardiovascular and All-Cause Mortality Events, 2015.
Jari Laukkanen, M.D., Ph.D., cardiologist and scientist at the Institute of Public Health and Clinical Nutrition, University of Eastern Finland

CAN BUILD MUSCLE MASS

When your body is subjected to heat, it prompts a number of beneficial changes in your body. Among these adaptive changes are increased plasma volume and blood flow to your heart and muscles. This leads to both an increase in athletic endurance and increased muscle mass, due to greater levels of heat-shock proteins and growth hormone.

CAN HELP BURN CALORIES

Exercise is key for a healthy lifestyle, but new research shows that sometimes it's time to relax. Findings show that it is actually possible to burn the same amount of calories by spending time in a hot bath, as you do running. The same should go for the sauna, considering that the explaining factor in these results is the raising of the core body temperature.

Passive heating can never replace physical activity, but these results indicate that heat can be used as a complement to exercise in a healthy lifestyle.

The acute and chronic effects of hot water immersion on inflammation and metabolism in sedentary, overweight adults, 2018.
Sven Hoekstra, under the guidance of Dr Christof Leicht and Dr Lettie Bishop, of the School of Sport, Exercise and Health Sciences (SSEHS).

BEAUTIFUL SKIN AND GLOW

Collagen is the protein that gives our tissues and organs strength and elasticity. The heat in sauna enhances collagen production, thereby strengthening and rejuvenating the complexion. The heat also leads to a dramatic increase in blood circulation. This in turn gives your skin a fresh appearance with at natural, healthy glow.

CAN HELP REDUCE MILD SYMPTOMS OF DEPRESSION

Research has found that regular sauna bathing actually has measurable positive effects on serotonin levels in our blood. Serotonin is the "happiness hormone" and it affects our mood and behaviour. Low levels of serotonin causes symptoms of depression.

Article in Colorado Arts and Sciences about Christopher Lowry, University of Colorado.

INFRARED WARMTH

Infrared sauna can have beneficial effects on several kinds of chronic pain like arthritis, back problems, sore muscles or joints and fibromyalgia. It can also raise the amount of serotonin, the "feel good-hormone", in our blood. Infrared saunas are commonly used for the 'detoxification' associated with deep sweating.

*GIVE YOUR HOME SOME
EXTRA WARMTH*

SAUNA ROOMS

The name TylöHelo is the result of merging two venerable and reputable brands in the sauna, steam and wellness sector. Both brands are known to bring top notch products, each in their own way. TylöHelo through innovation, technology and utmost attention to detail. Helo by their century old traditions in state of the art craftsmanship and beautiful traditional sauna designs. Together, we have been in the business of making you feel better for over 150 years.

MODULAR SAUNA ROOM

HARMONY

TylöHelo's modular Harmony sauna room is the solution for those who want a quick and easy route to sauna enjoyment. Your sauna is delivered as prefabricated components that are easy to assemble. It is all set up for installation of electrical systems and the ventilation systems are ready to go. The end result is an attractive and seamlessly constructed sauna where all nails, screws and joints are covered.

LOTS OF SAUNA FOR YOUR MONEY, CUSTOMISED STANDARD

Buying a sauna from TylöHelo is simple. Our Harmony sauna rooms can easily be customised to suit your individual requirements with regard to size and position. It's up to you to decide what type of wood you want for the walls and interior fittings, as well as how much glass surface you want for your sauna room. Then you add the sauna heater that best suits your needs, and finally a control panel. All designs are available in any room configuration on offer. You may also choose to design any room in the Harmony range with either vertical or horizontal panelling.

PLAN YOUR HARMONY

It's not hard to build a Harmony sauna. It can be made in a day or two. The thing that takes the longest time is to choose all the different elements like panels, benches and glass. The easiest way is to take it step by step in the right order.

1 - LAYOUT

Choose between square, corner, glass front, glass corner and round corner.

2 - PANEL

Horizontal or vertical paneling available in four different types of wood: Spruce, Aspen, Thermo-Aspen or Hemlock. Or two kinds of solid log: spruce or fir.

3 - INTERIOR

Choose between Classic, Classic slim, wide benches made of alder or aspen. Then select a closed style with skirting panel or an open style without skirting panel. The skirting can have either soft or straight bench front.

4 - GLASS

You can choose between clear glass, tinted glass or frosted glass.

5 - DOOR HANDLE

Choose between horizontal and vertical orientation or go for the design handle.

6 - SOFFIT

Soffits come with built-in lighting.

7 - HEATER

Here it is important to know the size of the sauna. See the compare tool at the web site or use the table in this catalogue.

LAYOUT

You can fit your Harmony into almost any space thanks to all the variations and sizes. The height is always 2,073 meters and the smallest measurement is 1,2 x 1,2 meters. Then you can make it as big as you want, also for professional use like spas and swimming halls.

EXCLUSIVE ALL-IN-ONE INSTRUMENT

All Impression sauna rooms are supplied with an exclusive hygrometer/thermometer with built-in LED lighting. Style and functionality in one – as well as atmospheric lighting.

COMPLETE WITH TWO SAUNA BENCHES

The sauna cubicle comes complete with two sauna benches at different levels and also with backrest and lightning.

INGENIOUS COMPACT DESIGN

Our Swedish designers set themselves the task of combining practical functions with an elegant setting where you can relax and pamper yourself in style. However, the Impression sauna also stands out by virtue of its ingenious compact design and its small dimensions. Here you can see an example of a common configuration for a TylöHelo sauna.

*The benches can be cut 10 cm on each side.
TylöHelo recommends the deep bench if space allows.

GLASS FRONTS AND CORNERS

Here we offer a number of glass fronts and corners to allow you to create your own stylish and spacious sauna.

Saunas can be constructed in a variety of sizes and configurations using the prefabricated glazed sections made of durable safety glass. The end result is always the distinctive contemporary design for which TylöHelo is known. Clear glass, aspen wood frame and aluminium floor frame. Wood strip package and floor frame for the rest of the sauna can be purchased separately.

PEOPLE HAVE ALWAYS
ENJOYED HEAT

PROFESSIONAL ROOMS

Spas, hotels, gym, swimming halls and other public saunas have to be of a high quality when used many long days a week. It also has to look inviting for the guests no matter if it is readymade or customized for special requests.

CUSTOM

However smart and beautifully designed, a standard solution doesn't always satisfy the inner most sauna dreams. Perhaps you have an "impossible" space that you would like to turn into a fully functional sauna? Or that your existing sauna room is looking a little tired. Regardless of your reason, TylöHelo customized solutions will help convert your dreams into reality.

We have a vast selection of both finished designs that allow you to create your ideal space. To put the final touches on your room there is an abundant range of matching accessories to choose from. Our experience and knowledge make us a reliable partner in conceiving your new wellness sanctuary. Our sauna professionals are always ready to help you or your architect in creating your dream sauna room.

Are you longing for a vacation, but hesitant to being away from your home sauna? We've got you covered! Here is a guide to a whole bunch of fun and completely unique saunas, for you to experience on your next holiday.

THE WORLD'S LARGEST PUBLIC SAUNA

The world's largest sauna is located on a remote beach in the Arctic Circle. The giant sauna fits more than a hundred people, so if you're the social kind of sauna bather, this one's definitely for you. We've written more about this impressive sauna, that actually features sauna heaters from our very own brand Kastor.

THE HOCKEY SAUNA

You know how cold you can get during an ice hockey game? The Finns have come up with the perfect solution: a Hockey Sauna! Imagine being able to watch your favourite team score, wrapped in nothing but a towel and with a cold beer at hand. In Finland (where else), it's now possible.

THE SALT SAUNA

This unique sauna in Den Bosch, The Netherlands, has walls made up entirely of Himalayan salt. Salty saunas have a lot of health benefits and can help give relief from many respiratory ailments. The salt gives a wonderful scent and even taste to the steam, and has been used for medical purposes since ancient times.

THE ICE SAUNA

It might sound hard to believe, but this ice sauna in northern Sweden is almost as steamy and hot as any regular sauna. Ice is a powerful insulator, and this sauna is built almost from large chunks of ice. The moist heat of the ice sauna is said to be a very unique experience, and the beautiful location on a lake allows you to cool off with a dip in the water through a hole cut in the ice.

PROFESSIONAL ELECTRIC SAUNA HEATERS

Shaped by real life use

Professionally managed environments like saunas in hotels, clubs, swimming baths and sporting facilities prioritize reliability and low energy consumption. Thanks to a tried-and-tested construction, intelligently conceived functions and top quality materials, our Sense Commercial heaters are more than a match for tough use and demanding conditions. The Sense Commercial heaters are equipped with features for smart, efficient and practical use in commercial situations.

STAND-BY MODE

Senses user frequency and automatically adjusts power output accordingly.

WIFI-BASED CONTROL PANEL 'ELITE'

Control multiple sauna or steam rooms from a single point of access, such as a front desk, or mobile device.

TYLARIUM – FOR PROFESSIONAL USE

Combining the Steam Commercial generator, Sense Commercial sauna heater with steam distributor, and the Elite control panel makes a Soft Sauna experience possible in public and commercial spaces as well. Representing a new way of enjoying heat and humidity, Soft Sauna is a modern take on the traditional sauna.

With lower temperatures and plenty of steam, Soft Sauna will give your customers a spa experience to remember and return to. Adding aromatic essential oils to the steam will provide a scented sauna session that is even more relaxing.

Selma Spa in Sunne, Sweden

CALCULATE HOW MUCH YOU CAN SAVE WITH OUR STANDBY TOOL ON tylohelo.com

Elite control panel

Control and monitor your sauna from the office or reception using nothing but local WiFi, a mobile device and TylöHelo's app. The app was specially developed to optimize your sauna experience and is compatible with iOS, Android and desktop PCs.

STEAM ROOM
ELYSÉE

TylöHelo Elysée is the perfect complement to public bathing facilities in hotels, spas and corporate hospitality suites. Or why not a luxurious addition to your home? The organic shapes of the Elysée steam room interiors will certainly help you relax in the best possible way.

SEAMLESS STEAM BATH EXPERIENCE
Elysée is made of high-tech, vacuum-formed, special-grade white plastic for a sturdy, steamtight construction. Supplied in ready-to-assemble wall and ceiling sections with integral seating and a recessed downlight above each seat. The door is made of tinted, tempered safety glass with a sturdy white lacquered frame and aluminium handles. Transformer for lighting, air outlet vent and all assembly hardware included. Glass wall sections and service walls are available in widths 398, 588 and 778 mm.

Elysée can also be reversed. Add a suitable steam generator and control panel. Outer wall coverings are not included. The dashed lines show the roof extension. The rooms can be extended further in the direction of the arrow.

☀️ ☀️

* Exterior height 2170 mm. These steam rooms have a one-piece dome.
** Exterior height 2070 mm.

STEAM ROOM

IMPRESSION

TylöHelo's steam showers are perfect in the modern bathroom and embody a distinct Scandinavian design. It's a revolution in home spa and spa suite, compact enough to fit into even a small bathroom. They provide flexible solutions that are easily adapted to an existing layout. The steam bath is a gentler experience. The atmospheric humidity inside reaches 100%, yet the temperature is only 40-45 °C, inviting you to relax a little longer.

MAXIMUM FREEDOM IN A SMALL SPACE

Impression is available in three different sizes. The corner model measures just 1125 x 1125 mm and comes with a bench. The middle sized model is 1325 x 925 mm and is delivered with a single bench. The largest one has twin benches and measures 1725 x 925 mm.

A FLEXIBLE SYSTEM

The walls can be reversed and assembled in a variety of ways to suit your bathroom layout. The steam generator is operated using the touch control panel on the steam shower column. The lacquered aluminium profiles conform to a registered design that ensures maximum versatility within the unique TylöHelo system, without any screws or visible fittings. The sleek lines of the design are a joy to behold – and simplicity itself to clean.

HIGH-QUALITY MATERIALS

TylöHelo's steam bath with shower in the Impression range is now available with a floor tray. The structure is made entirely of cast marble, an extremely stable material with a surface finish that ensures good water run-off.

SMART, ADAPTABLE SOLUTIONS

TylöHelo's floor tray for the Impression series has adjustable feet and an integral water trap. The tray entails an additional height of 100 mm, producing a total external height of 2200 mm for an Impression mounted on a tray. The tray is also supplied with a cup for waste water that is mounted on the steam head. The cup protects the tray and guarantees its function.

IMPRESSION I110/C

Exterior height 2090 mm. Size: 1125 x 1125 mm
Includes a ceiling shower. Accommodates one person at a time.

STEAM COLUMN TX

CONVERT A STANDARD SHOWER INTO A STEAM ROOM

1 - STEAM COLUMN TX202/G
TylöHelo's steam column tx202/G is a truly flexible solution developed especially to convert a standard shower space into a steam room. The actual steam column can easily be combined with suitable glass sections and a steam door to achieve a fully bespoke solution. The steam column is easily operated with the control panel from the h-series on the outside and is fitted on the inside with a steam head and hand-held shower. The steam column is also available as a pure steam column with no shower, called t202/G.

STEAM COLUMN WITH SHOWER
Item no. 8900 8160
STEAM COLUMN WITHOUT SHOWER
Item no. 8900 8170

2 - STEAM COLUMN TX202/W
The tx202/W is a wall-mounted steam column that offers both steam and shower options. The steam column makes it possible to convert a niche into a complete steam room with glass sections and steam doors. The column includes both a hand-held and a main sprinkler head, as well as a steam head. The main sprinkler head can be attached vertically, from 2180 mm to 1960 mm, as well as horizontally. The minimum installation size is 2140 mm. The column is also equipped with storage shelves and TylöHelo's new h1 touch-control operating panel.
Item no. 8900 8140

You can achieve your desired width by combining a steam column and steam door with your choice of glass sections.

MAKE YOUR STEAM EXPERIENCE COMPLETE

Your TylöHelo steam room is not a steam room without our efficient steam generators. Smart versions for both home and commercial use are available. Both are made with sensible technology for mindful use of water and electricity.

The steam delivery happens quickly and quietly through specifically developed steam nozzles. Have your steam room always ready to go at a moments notice through the convenience of stand-by mode.

For extra dimensions of luxury, convenience and comfort we can furnish a variety of add-ons to your steam generator, such as automated cleaning kit, de-scaling equipment and fragrance pumps, to name but a few.

TOTAL CONTROL WITH ELITE

Control and monitor your steam room from a distance using nothing but local WiFi, a mobile device and TylöHelo's app. The app is especially developed to optimise your steam experience and is compatible with iOS, Android and desktop PCs.

It's all about water

IT'S NOT JUST STEAM

Our new steam generators set a new industry standard with their innovative solutions based on decades of experience.

WE MAKE SURE EVERYTHING OPERATES SMOOTHLY

To ensure proper steam generation, it is important to analyse the water in your area. The quality of the water has a major bearing on both the function and service life of your steam generator.

Contact your local TylöHelo dealer to determine the water quality before ordering your steam generator system. Sometimes your local water company may be able to provide the information you need.

*RELAX AND DETOX IN A
RELAXING INFRARED ROOM*

INFRARED ROOMS

Experience the deep-penetrating heat that infrared heat therapy rooms and panels can provide. The infrared waves reach deeper into your tissues, relieving aching muscles of pain and stiffness. With rapid heat-up time, your infrared room is energy efficient and ready-to-go at the blink of an eye.

INFRARED ROOMS

The gentle warmth of infrared heat therapy rooms loosens muscle knots and relieves back pain. For active people the infrared treatment releases muscle tension and helps to prevent injuries and regenerate faster from training. And best of all: infrared relaxation is also possible when time is short. Refresh in just a few minutes infrared bath, enliven and give you strength for the rest of your day. An Infrared cabin is easy to assemble and no tools are needed thanks to the easy hook-and-pin panel assembly system. You can also plug it in yourself without an electrician.

SUN S PALACE 4-person.
1524 x 1524 x 1940 (mm) (WxDxH)

WHY INFRARED BATHING?

- Body-friendly. Infrared bathing is a safe and comfortable way to detoxify, and relieve aches pains and stress.
- Time-friendly. There's no waiting for an infrared sauna to heat up, so you can easily enjoy its benefits anytime.
- Planet-friendly. Even with daily use, Infrared technology uses as little or less electricity than many other common household appliances.
- Family-friendly. Infrared saunas are safe and easy to use for kids and adults alike.

COMBINE YOUR SAUNA ROOM WITH EXTRA INFRARED PANELS

Complement your sauna experience with infrared panels. The health benefits of infrared panels will complement your traditional sauna and give you more options.

IR OR SAUNA? IR AND SAUNA!

You can choose to take a traditional sauna bath, or enjoy the beneficial warmth of infrared panels, or use both at the same time. The heat source is covered by wood backrests and fabric with the panels installed vertically. In new saunas, the heaters are installed straight into the walls but infrared heaters can be retrofitted as well.

LOWEST EMR AND EF RADIATION

Our infrared panels keep exposure to EMR and EF radiation levels at a minimum, even lower levels of EMR and EF than sanctioned by Sweden's radiation standards, which are the most stringent in the world.

FULL-BODY HEAT

The exclusive EvenHeat™ system emits waves of infrared heat from its large heating panels to evenly warm your entire body. EvenHeat™ ensures that there are no "cold spots" due to non-uniform distribution of heat. Just plug it in and you're ready to relax and detox in the comfort of your own home.

OUR IR PANEL

The black IR panels are covered in a thin fabric to provide a comfortable touch (see image 2). The different formats of the panels are all mounted vertically and match the surrounding sauna interior perfectly. We also have panels in grey or black glass with wooden frames (see image 1 with grey sauna wax).

*PLEASURABLE WARMTH
FOR EVERYONE*

ELECTRIC AND WOOD BURNING HEATERS

Our sauna heaters are made to the highest standards for durability and longevity. We at TylöHelo are avid sauna bathers and make sure that our products are made for perfect sauna experiences. The engineering that goes into our heaters provides excellent heating performance and maximum efficiency. This gives you the possibility to enjoy a relaxing and hot sauna in just 25 minutes.

ELECTRIC TYLÖ SAUNA HEATERS

Faster heat distribution and heater longevity through Tylö patented air chambers.

Unique protective coating, never too hot to touch.

Less energy consumed and faster reaction time to heat sauna or steam room.

Our sauna heaters are made to the highest standards for durability and longevity. We at TylöHelo are avid sauna bathers and make sure that our products are made for perfect sauna experiences. The engineering that goes into our heaters provides excellent heating performance and maximum efficiency.

ELEGANT DETAILS

All Tylö heaters are carefully designed to deliver the ultimate sauna experience. The angled grill ensures optimal hot air distribution. The built-in water reservoir gives you a steamier option.

FAST HEATING THAT SAVES ENERGY

Tylö heaters all heat your sauna room up to twice as fast as any other heater. Tylö's unique Intelli.air system; dynamic air chambers that provide enhanced hot air distribution and the patented divided output feature enables energy savings of up to 30%.

SAFETY - A HIGH PRIORITY

Overheating cut-offs, thermostats and temperature sensors are vital components that are selected with meticulous care to ensure maximum safety. Tylö's Thermosafe™ is an integral part of the Sense range of heaters that uses this unique protective coating guarding against accidental burns.

Suitable for domestic use.

Suitable for commercial use.

Tylö's unique system of air chambers direct the air flow up through the heater, allowing for increase and efficient heating and directs out up and out from the unit.

Thermosafe™ is an integral part of the Sense range of heaters that uses this unique protective coating guarding against accidental burns.

The heating elements are manufactured in a closely monitored process to ensure reliable performance and long life.

EFFECTIVE WATER SPRINKLING

Tylö heaters' deep, centrally-located stone compartment ensures high steam output from water used.

MADE IN SWEDEN

Tylö manufactures its sauna heaters completely in-house. The heating elements are manufactured in a closely monitored process to ensure reliable performance and long life.

The choice of materials reflect Tylö's high quality standards. Thanks to in-house production and meticulous quality control you can rest assured that a Tylö heater is a reliable purchase.

PRODUCT TESTING AND CERTIFICATIONS

All Tylö heaters are being tested throughout the entire manufacturing process. It is very important for us that our products have all the necessary certifications in the operating country for customer peace-of-mind.

CHOOSING THE RIGHT TYLÖ HEATER TO SUIT YOUR SAUNA

Reach the perfect sauna experience and the greatest energy efficiency combined by considering the physical properties of your sauna room.
Follow the three easy steps below.

FIND OUT THE SIZE AND VOLUME OF YOUR SAUNA ROOM

Use the chart on the opposite page to give you an indication of heater choices and ideal power output for your sauna.

DETERMINE WHAT TYPE OF SAUNA THERAPY YOU PREFER

Different heaters provide different sensations.
For example traditional or Soft Sauna.

CHOOSE THE WAY YOU LIKE TO CONTROL YOUR SAUNA

Use an in-room control panel, remote, digital or analogue.

The sauna room efficiency chart

These guides help you choose the appropriate heater for maximum efficiency and usability.

PROFESSIONAL

Size of sauna room for professional use with corresponding heater output effect in kilowatts (kW)*

Heater model	4–8 m³	6–12 m³	10–18 m³	15–35 m³	22–43 m³
Sense Commercial 6	6.6				
Sense Commercial 8		8.0			
Sense Commercial 10			10.7		
Sense Commercial 16				16.0	
Sense Commercial 20					20.0

* Note: if your sauna room's walls have tiles, stones or glass add 1 m³ to your sauna room's volume for every m² of 'heavy material'.

ELECTRIC TYLÖ SAUNA HEATERS

Tylö electric sauna heaters are one of the keys to enjoying your home spa – exquisitely enveloped in gentle steam and aromatic fragrances or relaxing in traditional dry sauna heat.

SOFT SAUNA THE MULTIDISCIPLINED SAUNA

The Soft Sauna experience has been developed with families and togetherness in mind. Soft Sauna versatility means outstanding possibilities for individually tuned sauna experiences.

SET YOUR TEMPERATURE, YOUR MOISTURE, YOUR EXPERIENCE

Soft Sauna picks up where traditional saunas leave off. You may prefer a hot, dry and quick sauna, your family might like to linger in mild temperatures, enjoying gentle

steam and aromatic fragrances. Soft Sauna gives you the resources of a professional spa from one sauna heater solution.

SOFT SAUNA WITH SENSE COMBI HEATER – THE SOFT SAUNA HEATER

Sense Combi is one of our most versatile heaters and one that perfects the sauna experience for the whole family without losing the possibility for an individually tuned Soft Sauna experience.

Soft sauna. Lower Temp, Higher Humidity

Stay longer in the sauna. Lower the temperature and immerse yourself in warm steam. Keep the room temperature at a mild 45–65 °C and increase humidity to 40–56% to create that perfect soft sauna climate. This sauna therapy is perfect for families and friends. A long and relaxing session that can be enhanced by adding fragrant scents, herbs and minerals to increase the healing properties of the sauna bath.

STEAM GENERATORS

High performance steam generation is key for superior steam bath therapy. Our steam generators are made for comfort and convenience all the way. Regardless of application, we ensure smooth steam delivery and a minimum of maintenance.

Speed heat

Greater energy efficiency through faster warm-up times.

Standby

Less energy consumed and faster reaction time to heat sauna or steam room.

Wi-Fi

Wifi connectivity for comfort, control and convenience.

QUALITY

For over 30 years we have been manufacturing steam generators at our factory in Sweden and have taken great pride in producing top quality products. Smart technical solutions form the basis for sustainable products and are a key contributing factor to our industry leading position.

COMMUNICATION

Our control panels allow you to control and monitor up to three steam generators from the same location. You can also set it up on your computer or mobile device.

INTELLIGENCE

Two-way communication between the control panel and the steam generator provide a handy real-time overview of all functions.

SUSTAINABILITY

Quality control, smart technology and a strong focus on water and energy consumption, we have designed Tylö's steam generators for minimal impact on our environment. The stand-by mode option and our "divided output" function can reduce energy consumption by up to 30%.

LESS MAINTENANCE

A Tylö steam generator will run for many years with no interruption and a minimum of maintenance. They come with an automatic emptying function set according to the water quality in your area.

HIGH LEVEL OF COMFORT

Whether our steam generators are installed in a home or public setting, they are designed to offer top-quality enjoyment comfort and safety without interruption. The convenient Multi-Steam function ensures uninterrupted operation in heavily-utilised facilities.

It's all about water

IT'S NOT JUST STEAM

Our new steam generators set a new industry standard with their innovative solutions based on decades of experience.

WE MAKE SURE EVERYTHING OPERATES SMOOTHLY

To ensure proper steam generation, it is important to analyse the water in your area. The quality of the water has a major bearing on both the function and service life of your steam generator. Contact your local TylöHelo dealer to determine the water quality before ordering your steam generator system. Sometimes your local water company may be able to provide the information you need.

SMARTER STEAM GENERATION

Leave the challenges of everyday life behind and enjoy the perfect end to your day in a relaxing steam bath. TylöHelo has a strong tradition of providing steam generators for public and private use. Our latest series is fitted with a state-of-the-art control unit to ensure precise operation. Control the steam, lights, timer and other features at the simple touch of a button. Add fragrances and relax. Indulge yourself and all your senses.

TOTAL CONTROL WITH ELITE
Control and monitor your steam room from a distance using nothing but local WiFi, a mobile device and TylöHelo's app. The app is especially developed to optimise your steam experience and is compatible with iOS, Android and desktop PCs.

STEAM COMMERCIAL

Our Steam Commercial steam generator is equipped with a large water tank and is designed to easily connect to our Multi-Steam function – an effective way to avoid stoppages in frequently used systems.

STEAM HOME

Our latest compact and effective steam generator for home environments. It offers new and improved features such as stand-by, an aromatherapy option and improved protection against stoppages.

FINAL TOUCHES TO YOUR STEAM

MORE STEAM, FASTER STEAM, BETTER STEAM
Improve your steam bath experience by adding a little extra TylöHelo something to it. Our long standing experience as true steam experts and enthusiasts, we provide a whole host of options for added comfort, convenience and practicality.

PROFESSIONAL STEAM AT HOME
A steam bath is a soothing and relaxing experience. Don't let anything get between your steam and yourself. Automate as much as possible to minimize cleaning, scheduling, maintenance and care. Just sit back, relax and get on with your day.

Heater accessories

Heater accessories

	Model	Item no.	Features
	External switch	90908047	On/off switch to control the sauna from locations other than where the control panel is installed.
	Door contact	90908035	Prevents unintentional start-up of the sauna by remote control if the sauna door is open.
	Elite recessed frame	90001056	Specially designed to work with Elite control panel. The control panel and mounting frame are fully integrated into the wall, regardless of whether they are located outside or inside the sauna room.
	Steam distributor Commercial	90029263	Steam outlet for Tylarium. The Tylö Steam distributor Commercial improves the distribution of steam in your sauna room. Specially designed for Sense Commercial heaters 10–20 kW.
	Steam outlet Bahia Home	90029254	High-efficient and low-noise steam outlet for smaller steam rooms. Made of high-gloss plastic and tempered safety glass panels with a protective coating. Size: 280 x 180 mm (BxH).
	Steam outlet Bahia Pro	90029252	Made of tempered safety glass with an exclusive Corian front panel, highly suitable for large steam rooms. Extremely quiet in operation. Size: 500 x 300 mm (WxH).
	Legs for Sense 6/8/10	90001060	Legs for all Sense sauna heaters 6.6–10.5 kW. Color black.
	Legs for Sense Combi 6/8/10	90001061	Legs for all Sense Combi sauna heaters 6.6–10.5 kW. Color black.
	Sauna stones Mini Compact, 7 kg	90141005	Natural stones of black diabase that tolerate rapid heating and cooling. Suitable for our Sense Sport heaters.
	Sauna stones, 14 kg	90141000	Natural stones of black diabase that withstand rapid heating and cooling. One carton (approx. 14 kg) is sufficient for our Expression heaters. Sense Commercial 10–20 heaters requires two cartons.
	Sauna stones, 20 kg	90141050	Natural stones of black diabase that withstand rapid heating and cooling. One carton (20 kg) is sufficient for Sense heaters 6.6–10.5 kW and Sense Combi heaters 6.6–10.5 kW.

ELECTRIC HELO SAUNA HEATERS

Finnish sauna traditions, ingenuity and design

Helo sauna heaters are steeped in tradition. The Finnish sauna is a vital part of every day, a chance for families and friends to gather and unwind. A Helo sauna heater elevates the daily sauna experience by adding beautiful design and ingenuity to the heater's functionality. Helo has spearheaded the multi-layered sauna experience through its smart BWT technology, which allows for a multitude of sensations from one single sauna heater. Select hot, dry, warm, humid, or any combination that you prefer. Add to that the possibility to infuse the space with soothing aromas or minerals. All you really need to do is use the BWT container. Add or subtract water. Lean back. Relax.

BWT READY

HELO SAUNA HEATERS FOR HOME AND COMMERCIAL USE

To make it easier for you to determine what sauna heater might be the right one for you, we have marked them with two different icons to quickly allow you to see what type of application it is best suited for.

Suitable for domestic use.

Suitable for commercial use.

HELO IS SYNONYMOUS TO SAUNA VARIETY

We take your sauna pleasure seriously. Therefore we have developed BWT technology, a revolutionary solution to suit different sauna tastes and preferences. One single sauna heater provides several varieties of soothing sauna styles. Indulge in a multi-layered sauna experience, alone or with friends and family.

Gentle Sauna: 50–60°C temperature

Add water to BWT container, set to 50–60°C

- Gentle sauna
- Enveloping steam
- Longer sessions
- Can be used as bio-aroma or salt sauna.

Flexi-Sauna: 60–80°C temperature

Fill BWT water container and set to 60–80°C

- More humidity
- Lower temperature
- A gentle sauna experience
- Can be used as bio-aroma or salt sauna.

Hot & Dry Sauna: 80–100°C temperature

Use BWT without water and set to 80–100°C

- High temperature
- Low humidity
- Intense sauna sensation.

HELO SAUNA SENSIBILITY

ECONOMY — Less wear and longer life protects your investment. The generally lower levels of heat used in a BWT-ready sauna from Helo means less stress on the sauna room and hardware. Your sauna room will last longer and the simple engineering of BWT keeps technical maintenance to a minimum.

ECOLOGY — Faster warm-up time, same sauna sensation, but with a much lower energy consumption and less CO₂ emissions. With a BWT-ready sauna solution which utilizes the physical properties of steam, you get the full sensation of heat in less time.

CHOOSING THE RIGHT HELO HEATER TO SUIT YOUR SAUNA

Reach the perfect sauna experience and the greatest energy efficiency combined by considering the physical properties of your sauna room. Follow the three easy steps below.

FIND OUT THE SIZE AND VOLUME OF YOUR SAUNA ROOM

Use the chart on the opposite page to give you an indication of heater choices and ideal power output for your sauna.

DETERMINE WHAT TYPE OF SAUNA THERAPY YOU PREFER

Different heaters provide different sensations.

CHOOSE THE WAY YOU LIKE TO CONTROL YOUR SAUNA

Use an in-room control panel, remote, digital or analogue.

STEAM GENERATORS

Helo Steam PRO

The new Helo Steam Pro generator automatically prevents overheating and dry running, should there be an interruption to the water supply. The generator saves time on maintenance and down time thanks to its automated filling function. For added convenience flushing and emptying functions are available, as well as the possibility to run several units through serial connection.

HELO STEAM PRO

Available sizes: 9.5/12/14/16 kW

Features:

- Standby Function
- Automatic flush, Safety flush
- Two aux outputs for fragrance/salt
- Ganging with RJ connectors (1+2units)
- Resettable highlimit switch
- New drain valve

Available Add-on:

- Push button for activation from Standby

Helo Steam

The Helo Steam generator for private use is based on the newest available technology. It sets a whole new level for user interface and reliability. It comes equipped with two auxiliary compartments for salt/fragrances for added comfort. It is also possible to order it with optional drain valve and automatic flush functionality.

HELO STEAM

Available sizes: 3.4/4.7/6/7.7 kW

Features:

- Two aux outputs for fragrance/salt
- Resettable highlimit switch

Available Add-on:

- New drain valve
- Automatic flush

DIGITAL CONTROL UNITS FOR COMFORT AND CONVENIENCE

Experience a next level steam bath. Combine our new and efficient steam generators with one of our digital control units. Not only can you enjoy the luxury and comfort of your own steam bath. You can plan ahead and schedule your steam sessions to be an integral and natural part of your everyday routine.

CONTROL PANELS

Elite

EFFORTLESS BATHING

The new control panel Elite from TylöHelo is packed with advanced features, thanks to its internal processor and operating system. In addition to highly personalized settings, the Elite can be individually programmed according to your own schedule.

Add features such as auxiliary fans, fragrance pumps or lights – the Elite control panel handles it all with clear and concise precision. The 4.5-inch touch screen delivers real-time status on every aspect of your sauna and steam bath. Naturally, it includes steam and temperature settings and local WiFi app-connectivity.

A CONTROL PANEL FOR MOBILE DEVICES AND COMPUTERS

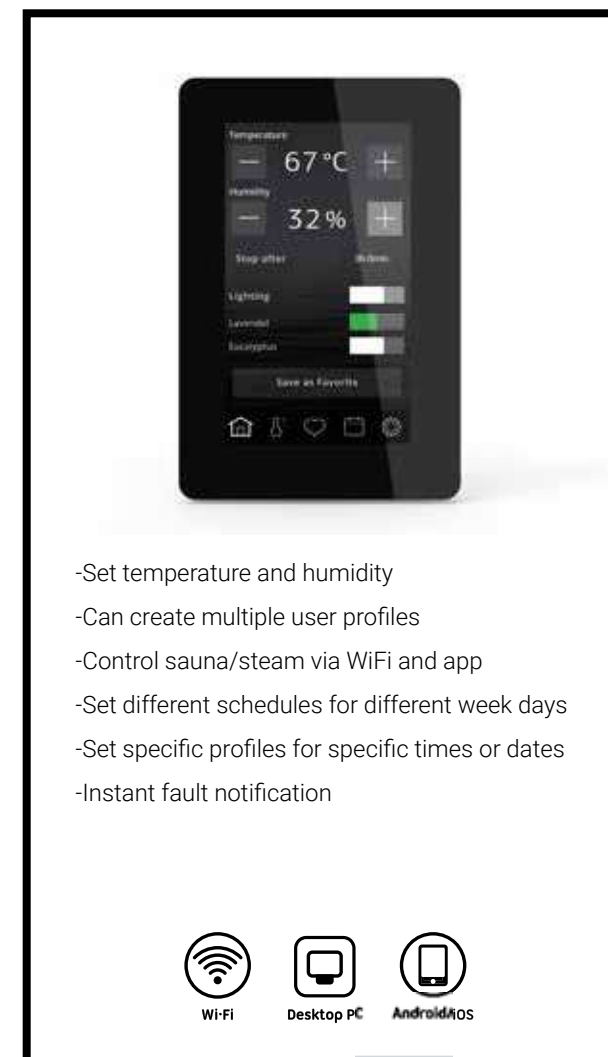

The user interface, developed for mobile devices and personal computers, perfectly emulates that of the steam room's or sauna's control panel. Through sensible engineering, the outcome is highly usable functionality, allowing steam bathers to log on to the control panel through the app over their local WiFi network and control their sauna and steam bath.

On both the control panel itself and via the app it is possible to create and save several different user profiles and favourite settings, and set different schedules. In commercial settings, it is possible to manage multiple units from one point of access, and set unique profiles for different locations.

FLAT SURFACE

If you prefer the Elite control panel to be recessed in the wall you can add the Elite back box for easy in-wall mounting. Item no. 9000 1056

- Set temperature and humidity
- Can create multiple user profiles
- Control sauna/steam via WiFi and app
- Set different schedules for different week days
- Set specific profiles for specific times or dates
- Instant fault notification

Pure

INTUITIVE DESIGN AND FEATURES

The elegant, compact design of TylöHelo's Pure control panel makes it the go-to choice for those who value functionality and simplicity.

The thin black control lets you set the lighting, temperature and sauna time easily with only a few touches. Of course, choosing the start time up to ten hours in advance means you can step into a wonderfully hot sauna as soon as you get home (Door contact needs to be added).

Control panels & relay boxes

Control panels for sauna and steam

	Model	Item no.	Size WxHxD mm	Features		For sauna or steam?	Suitable sauna heater	Relay box required?	Suitable steam generator
	Pure	72001420	85x127x12	Thermostat controlled touch control panel, for installation inside or outside the sauna or steam room.		Both	Sense Pure - included	No	Steam Home

WOOD BURNING KASTOR HEATERS

There is something very special about a wood burning sauna. Here at TylöHelo, we appreciate saunas in all their various forms and offer wood burning stoves from Kastor, renowned for its world-class quality products. Our wood burning sauna heaters are designed with optimum quality in mind. Not just in terms of physical construction, but also for optimum function. Thanks to skilful engineering we have succeeded in combining modern aesthetics, functionality and a clean burn.

Pleasure and principles

Harnessing fire for practical use is the basis of our existence. With time we have invented ever more efficient methods to get more out of fire: hotter from hot. Once they are finished, they are dressed in an elegant and polished exterior, ensuring its viewer is not left cold either.

**EVERY KASTOR
WOOD BURNING
STOVE COMES WITH
A TWO-YEAR
WARRANTY**

Suitable for domestic use.

TECHNICAL HIGHLIGHTS

1. Large, deep stone compartments hold plenty rocks: the key to producing billows of soft, rich steam.
2. The combustion is clean and the energy efficiency ratio as high as 70%. As the flue gas temperature is kept below 600°C, you can choose a Kastor heat class T600 modular chimney for safe and easy installation.
3. The door window, made of ceramic glass, is capable of withstanding 800°C.
4. Sturdy doors.
5. High grade steel used throughout.
6. Outer mantle made of stainless zinc-aluminium alloy.
7. Adjustable legs.

WOOD BURNING HEATERS

The operating efficiency of our wood burning heaters is unrivalled, and the temperatures of the emitted flue gases are low. The efficient combustion is based on the skilled use of heat-retaining materials, optimisation of the sauna stones container, and above all our efficient double combustion technology.

Your heater will heat up quickly, economically and in an environmentally friendly manner. Our heaters that include a water tank allow you to adjust how rapidly the water heats up according to your preference.

KASTOR SAGA

The Kastor Saga takes wood burning saunas to new heights with 130 to 180 kg of exposed stone providing soothing heat and steam. The surface of the stones makes the stove a delightful focal point.

CHIMNEY BASKET

The Saga stove's chimney basket can hold 40 kg of stones.
Measurements: 330 x 600 x 330 mm

HELO R20

The Helo R20 wood burning heater, suitable for 8–20 m³ sauna rooms, is available with or without a water tank on the front, left or right hand sides of the heater.

KASTOR KARHU/ KARHU VO/VV

With its depth, air control system and reinforced door, the Karhu is a safe and strong sauna stove. The Karhu VO has a water tank on the right, and the Karhu VV has a water tank on the left (as viewed from the front).
